About Us

Tampa is an international toy manufacturing company based in Istanbul.

We create innovative and useful products that offer significant value to the consumers. Tampa focuses on servicing the world-wide market specialized in toddler products, such as foam puzzles and preschool games.

Our objective is to present a new set of ideas that make learning more attractive and enjoyable, while also being effective. Combining blister packaging with foam puzzles brings something new to the puzzle industry. The material we use is safe, colorful and also soft. Which differentiates us from other competitors on the market.

We believe that strong, long-term relationships, are a critical factor to the foundation of a successful business. Our goal is to consistently meet and exceed the expectations of our clients and distributors around the world. We will do this through providing exceptional customer service, fast and efficient turnaround times, positive attitudes, and steadfast integrity and professionalism.

Our Values

We combine children education within visual arts, develop children's identifying ability in detail, improve their understanding of beauty.

Before we launch our products, every sample will be analyzed and checked carefully. All products of Puego adopt natural plant dyestuff, printing ink, etc. All have passed the EN71-1, EN71-2, EN71-3 the European safety standards. We insist on using manual quality inspection to trace back to every detail. Strict QC guard our children to play in safe.

Baby Puzzle

Description

Puzzle plays an important role in the development of children. It supports many aspects including hand and eye coordination, fine motor muscles, visual attention, skill to solve problems, self-confidence, and patience. As his/her motor skills and senses begin to develop at an early age, the child would become more active and enjoy the feeling of success by assembling the puzzle by himself/herself.

4 in 1 Puzzle

Description

4 in 1 Puzzle perfectly meets the expectations of siblings - all will work out their own favorite image, even at the same time. The diverse number of the pieces allows playing the game for both the younger and slightly older children. Its beautiful graphics and the ability to create together with other players are the reasons why children love playing puzzles. The box contains four puzzles consisting of 12, 16, 20 and 24 pieces.

Where is My Home?

Description

Where's my home is a matching game consisting of 4 different double sided thematic cards representing 24 different symbols. It is a fun matching game for the child to match each animal with its habitat to increase his/her knowledge of the natural world. Variety of visuals representing different animals from all over the world, including an octopus under the sea, a zebra in a savanna, a fox in a forest, and a penguin on the pole, are matched. Thus the visuals are storified to help the child to get to know each animal and to associate it with its habitat in a fun way.

4 Seasons

Description

4 Seasons is a matching game containing spring, summer, fall and winter visuals, consisting of 52 pieces. It contains four different puzzle games each having five pieces and 32 different matching symbols.

Set up the puzzle pieces depicting four different seasons together with the matching cards. Turn the symbols over. Ask the child to review the symbols in turn. Let the child match the visuals on the pieces with the pictures, in the meantime you can tell a story about each visual to let the child have fun while learning the seasons.
